

Test Summary Report

1. Project Information

Project Name: Styled Image Ad Creator

Tester: Ozih Uddin Al Fuzayel (SQA)

Test Types Executed: Functional, UI/UX, Cross-Browser, Negative Testing

Test Duration: Completed in Single Test Cycle

2. Test Execution Summary

Total Test Cases Designed: 38

Total Executed: 38

Passed: 36

Failed: 2

Blocked: 0

Overall execution success rate is **94.7%**.

3. High-Level Findings

- Core features including background editing, typography, and CTA customization function correctly.
- Preview updates instantly for most settings with no visible lag.
- Download functionality works with both default and customized settings.
- UI remains visually stable across Chrome, Firefox, and Edge.
- Random background generator and outline/shadow effects work properly.

4. Defect Summary

Total Defects Found: 2

1. Text overflow issue in preview

- When extremely long text is entered, preview sometimes clips text instead of resizing gracefully.

2. Slight color mismatch in downloaded image

- CTA background color appears slightly darker in downloaded file compared to preview.

Both issues submitted for developer review.

5. Risks Identified

- Long ad copy may break layout if user enters multi-line text beyond tool expectations.
- Font rendering appears slightly different across browsers, especially Firefox.
- No validation on invalid hex values — may cause unexpected background behavior.

6. Recommendations

- Add character limit or auto-resize for long text inputs.
- Add hex color validation before applying values.
- Improve color rendering consistency between preview canvas and exported image.
- Add tooltip descriptions for styling controls to improve usability.

7. Final Test Verdict

Status: APPROVED WITH MINOR ISSUES

The Styled Image Ad Creator is stable and functional with no critical or blocker defects. It is suitable for release after minor UI/Rendering adjustments.
